

KASHMIR

<u>Head</u>	20	The head is round, medium to large in size, with good breadth of skull in proportion to the body. The face is round with round underlying bone structure. Well-set on a short thick neck. The nose is short, snub, and broad, with a well-defined break. The cheeks are strong and prominent. The bite is even. Chin is full and well-developed.
<u>Ears</u>	5	Ears are small, round-tipped, tilted forward, set far apart and low on the head. Not unduly open at the base.
<u>Eye Shape</u>	5	Large, round and full. Set wide apart and brilliant, giving a sweet expression to the face.
<u>Eye Color</u>	5	Gold to copper, the deeper the better.
<u>Body, Legs & Feet</u>	20	The body is cobby, low on the legs, deep in the chest, equally massive across the shoulders and rump. Quality is the determining factor rather than size. The back is level. Legs are short, thick, and strong. Forelegs are straight. Paws are large, round, and firm. Toes are carried close together.
<u>Tail</u>	5	Short, but in proportion to body length.
<u>Coat</u>	10	Long and thick, standing off from the body. Glossy and full of life. Long all over the body, including the shoulders. The ruff is immense and continues in a deep frill between the front legs. Ear tufts and paw feathers are long, brush is full.
<u>Color</u>	20	Color should be even. Subtle lightening due to thermal effect allowed at the roots, on the stomach and underside of legs and tail. Allowance to be made for uneven color in kittens. Penalize for incorrect color of paw pads or nose leather.
<u>Condition & Balance</u>	10
